

IP Justification Form

Introduction

Cruzio.com follows strict IP guidelines that have been established by ARIN (American Registry for Internet Numbers: <http://www.arin.net>). Under ARIN's guidelines, Cruzio is required to maintain IP justification documentation for each IP address assignment. Failure to follow this guideline may affect Cruzio's ability to obtain additional IP allocations in the future, or worse, existing allocation may be impacted.

Please review ARIN's strict policy at: <http://www.arin.net/policy/index.html>.

Cruzio.com IP Address Policy

Cruzio customers may request any number of IP addresses for an additional cost. Please review the current cost for additional IP addresses at <http://www.cruzio.com>. Customers must provide justification plans that explain how the IP addresses will be used. Cruzio retains the absolute rights in deciding IP addresses assignment.

The Client MUST use 60% of the IP addresses within the day of assignment. A one-week grace period is allowed to cover equipment problems. This means if a client is assigned 50 IP addresses, 30 IP addresses must be "pingable" within one week after the IP addresses assignment. The Client MUST use 80% of assigned IP addresses, or the addresses will be withdrawn. Client MUST use 90% of assigned IP addresses before Cruzio will issue any additional IP addresses.

ARIN rules require websites to share IP addresses whenever possible

You no longer need an IP address for each website. In most cases, you should be able to run as many websites as you like using a single IP address. This technology is normally referred to as "Named based virtual hosting". With named based virtual hosting, you no longer need to purchase additional IP addresses for each site, and DNS management becomes much easier as there are no large groups of IP addresses that you need to manage. For more information on how to implement named based virtual hosting, please consult with your web server documentation.

Apache Web Server: <http://httpd.apache.org/docs-2.0/vhosts/name-based.html>

Microsoft IIS Web Server: <http://support.microsoft.com/default.aspx?scid=KB;EN-US;Q190008&ID=KB;EN-US;Q190008>

Cruzio IP Justification

Please email your IP address justification form to office@cruzio.com or return to Cruzio's headquarters at 877 Cedar Street Suite 150, Santa Cruz. Please allow 1-3 business days for IP address approval and allocation.

Please fill out this form completely. Failure to complete this form in its entirety could result in a delay of IP approval or allocation.

Customer Information		
1	Customer Name	
2	Address	
3	City	
4	State, Zip Code	
5	Country	
6	Phone Number	
7	Fax Number	
8	Email Address	
9	Domain Name	
10	Server Name	

CURRENT IP Address Usage

List all of your current IP addresses, spaced out as shown in the example below. You must list all information for all IP addresses currently assigned to you.

Current IP Address Usage			
IP Address	Server/Domain Name	Service Type	Age
111.222.111.222	server1.example.com	www	3 mos

FUTURE IP Address Usage

Please list all of your future plans on IP address usage. Please include the services that need to run on different IP addresses and the name of the server that will have these IP addresses and the name of the server that will have these IP addresses installed on. Attach separate sheets and network diagram if necessary.

Current IP Address Usage			
IP Address	Server/Domain Name	Service Type	Age
222.111.222.111	server2.example.com	dns	6 mos
