
Cruzio Classes

Current class schedule

Cruzio Classes give you the skills to succeed on the Internet

Whether you're a small business owner looking to take control of your website, or a beginner looking to master Web browsing, Cruzio has something for you.

Our classes feature:

Hands-on training Most of our classes put you in front of a computer, allowing you to learn as you go through the class with the teacher right by your side.

Personalized attention Hands-on classes are always kept to ten or less students, and with two teachers per class all students are guaranteed personal attention.

You'll find a list of upcoming classes over to the right. To sign up, select the class that you want and click Register. Follow the registration process and we'll see you in class.

Need to work more on your project? Do it with an expert!

Use the Cruzio One on One to:

Work on your website We can help with any Joomla or WordPress based site.

Perfect your ecommerce store: Add new features to your ShopSite!.

Master Cruzio services Become a pro in Webmail, Control Panels, or Junk Mail Filtering.

You'll work directly with one of our experts who can give advice, offer recommendations and point you in the right direction. Use one of our computers or bring your own. Enrollment is extremely limited, so register today.
